

**"FIORE" Jacuzzi Bathtub Instructions for Use – Units 01/02**

**For Jacuzzi bathtub use:**

- A. Make sure that the MAIN DIVERTER KNOB (5) is completely closed and that there is no water flow through the HAND-HELD SHOWER (2) into the VANITY AREA (6).
- B. Open ONLY the HOT AND COLD FAUCET KNOBS (4) and fill the tub to at least 2" above the highest jet.

**If the VANITY AREA (6) becomes filled with water, it is likely that water can pass around the SHOWER HOSE HOLE (7), causing water to seep under the bathtub and into the Unit below.**

**For hand-held shower use:**

- A. Make sure the water is OFF and remove the HAND-HELD SHOWER (2) from the VANITY AREA (6).
- B. Turn the MAIN DIVERTER KNOB (5) counter-clockwise (ON) and rotate the FLOW CONTROL LEVER (3) upward.
- C. Then turn the water on using HOT AND COLD FAUCET KNOBS (4).

**When you are finished using the HAND-HELD SHOWER (2):**

- D. FIRST turn off the water supply at the HOT AND COLD FAUCET KNOBS (4).
- E. Turn the MAIN DIVERTER KNOB (5) clockwise (OFF).
- F. Rotate the FLOW CONTROL LEVER (3) downward, AND THEN you can replace the HAND-HELD SHOWER (2).
